Introduction

介绍：

One aspect of the Automotive Group's activities is to raise consumer's awareness of product piracy. The members also try to track down the well-organized networks responsible for manufacturing counterfeit components and to transfer serious cases to the Public Security Bureau, seeking a criminal conviction of counterfeiters in Court. In this fight against piracy, the individual companies are making use of the revised PR China Intellectual Property Right laws and regulations, exhausting all channels available to protect its customers from falling victim to substandard goods.

汽车小组的活动一方面是为提高消费者对盗版产品的认识。另一方面，小组成员还会努力追查组织严密的制假售假网络，情节严重的向公安局移送，争取法院对制假者进行刑事定罪。在打击盗版的过程中，每个独立的公司都会利用修订后的《中国知识产权法》，用尽一切可以利用的渠道，保护他们的客户不受劣质商品的侵害。
