Introduction

介绍：

The Small Appliances IWG was formed in the latter half of the year 2002. Since its establishment, group members have identified common products which have had serious counterfeiting problems: linen care (irons), hair care (hair dryers), house cleaning (vacuum cleaners), food preparation (food processors), light emitting (bulbs), and oral hygiene (electric toothbrushes), TV, Video, and audio instruments.

本行业小组成立于 2002 年下半年。自成立以来，小组成员已识别出具有严重假冒问题的产品：织物护理（熨斗），头发护理（吹风机），房屋清洁（吸尘器），

食品准备（食品加工设备），照明设备（灯泡）和口腔卫生（电动牙刷），电视，视频和音频设备。

In addition, common concerns within the IWG include the export of counterfeit products from China as well as trademark and design patent infringement issues. The most serious counterfeiting problems are found in Guangdong and Zhejiang Provinces.

此外，行业小组的共同关注点包括出口中国的假冒产品以及商标和外观设计专利侵权问题。假冒问题在广东和浙江省尤为严重。
